**TO:** Mayor and Councilmembers

**FROM/PHONE:** David Quigley, AICP, Planning and Zoning Manager/(954) 797-1103

**PREPARED BY:** Lise Bazinet, Planner II

**SUBJECT:** Ordinance

**AFFECTED DISTRICT:** District 2

**ITEM REQUEST:** **Schedule for Council Meeting**

**TITLE OF AGENDA ITEM:** REZONING - AN ORDINANCE OF THE TOWN OF DAVIE, FLORIDA, APPROVING REZONING PETITION ZB 7-1-07, CHANGING THE CLASSIFICATION OF CERTAIN LANDS WITHIN THE TOWN OF DAVIE FROM R-5, LOW MEDIUM DENSITY DWELLING DISTRICT TO CF, COMMUNITY FACILITIES DISTRICT; AMENDING THE TOWN ZONING MAP TO COMPLY THEREWITH; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE. ( ZB 7-1-07, New Life Baptist Church, 2400 South Pine Island Road) Planning & Zoning Board recommended approval.

**REPORT IN BRIEF:** The petitioner (New Life Baptist Church of Davie, Inc.), requests to rezone the subject site in order to allow the development of a house of worship. Although the Future Land Use designation for this parcel is Residential 10 DU/AC, the Comprehensive Plan allows for a zoning change to CF, Community Facility, because the uses allowed in CF are generally supportive of surrounding residential uses. Staff finds that the proposed rezoning is generally consistent with the Comprehensive Plan, is in conformance with all applicable Codes and Ordinances and is generally compatible with the other surrounding zoning districts.

**PREVIOUS ACTIONS:** n/a

**CONCURRENCES:** At the January 27, 2010 Planning & Zoning Board meeting, Mr. Farkas made a motion, seconded by Mr. Jacob, to approve. In a roll call vote, the vote was as follows: Chair Turin – yes; Vice-Chair Busey – yes; Mr. DeArmas – absent; Mr. Farkas – yes; Mr. Jacob – yes. **(Motion carried 4-0)**

**FISCAL IMPACT:** not applicable

## **Comprehensive Plan Considerations**

### **Planning Area:**

The subject property falls within Planning Area 5. This Planning Area is bound by Nova Drive on the north, University Drive on the east, and Nob Hill Road on the west. The southern limits are SW 36 Street, on the western portion. This planning area is comprised of residential uses developed at a density of three to 22 dwelling units per acre and commercial development, existing and proposed, along the University Drive and Orange Drive corridors. The Pine Island Ridge, classified as environmentally sensitive, has been preserved within this planning area.

### **Broward County Land Use Plan:**

The subject site falls within Flexibility Zone 99.

### **Applicable Goals, Objectives & Policies:**

*Future Land Use Plan, Community Facilities Use, policy 13-2:* Community Facilities may be permitted in land use categories other than Community Facilities category, provided such development is compatible with and does not adversely affect the development of surrounding land for designated purposes.

*Future Land Use Plan, policy 5-2:* The (re)zoning, (re)platting, and site planning of land shall be in compliance with the density ranges shown on the Davie Future Land Use Plan map and the applicable Future Land Use Designation provisions as contained in the Permitted Use portion of the Implementation Section.

*Future Land Use Element, Land Use Compatibility and Community Appearance, Policy 17-1:* Lands designated for non-residential use shall be located in a manner, which facilitates development, but does not adversely impact existing and designated residential areas.

*Future Land Use Plan, Land Use Compatibility and Community Appearance, Policy 17-2:* No property within the Town shall be rezoned to a zoning district that is not in compliance with the Davie Future Land Use Plan.

*Future Land Use Plan, Land Use Compatibility and Community Appearance, Policy 17-3:* Each development proposal shall be reviewed with respect to its compatibility with adjacent existing and planned uses.

---

## **Public Participation**

The public participation process provides the ability for citizens of the Town of Davie to actively participate in the Town's development procedures. The petitioner conducted meetings with the public at the Town of Davie Community Room (6591 Orange Drive) on September 13 and 21<sup>st</sup>, 2007. Attached is the petitioner's Citizen Participation Report.

## **Staff Analysis**

The following information is staff's analysis based on the criteria established in the Town of Davie Land Development Code, Section 12-307(A)(1) for rezoning application. The Planning and Zoning Board shall make a recommendation upon the application to the Town Council, based upon its consideration of, where applicable, whether or not:

- (a) The proposed change is contrary to the adopted comprehensive plan, as amended, or any element or portion thereof;

*The Town of Davie Comprehensive Plan permits, within Community Facilities uses, to include Houses of Worship in the Residential 10 DU/AC Future Land Use Plan Map designation and therefore rezoning the site to CF, Community Facilities District, is compatible with the underlying land use category.*

- (b) The proposed change would create an isolated zoning district unrelated and incompatible with adjacent and nearby districts;

*The CF, Community Facilities District, is compatible with the adjacent residential zoning designations since this district is compatible with all residential Future Land Use categories. The proposed development of the site as a House of Worship will be made compatible through the application of the Land Development Code's setback and buffering requirements.*

- (c) Existing zoning district boundaries are illogically drawn in relation to existing conditions on the property proposed for change;

*The existing R-5, Low-Medium Density Dwelling District boundaries are not illogically drawn or incompatible with the existing land use designation.*

- (d) The proposed change will adversely affect living conditions in the neighborhood;

*Designating the site CF, Community Facilities District, in order to allow a House of Worship is not expected to have a negative impact on the neighborhood. Community Facilities including Houses of Worship are permitted in all residential land use categories as a supportive use to the dwellings. The Land Development Code requires that the site be designed to account for the adjacent uses by providing for minimum setbacks, limiting building height, and requiring landscape buffers.*

- (e) The proposed change will create or excessively increase automobile and vehicular traffic congestion, above that which would be anticipated with permitted intensities or densities of the underlying land use plan designation, or otherwise affect public safety;

*The traffic generated by the proposed House of Worship may be, at times, more than five dwelling units per acre residential development on the site, but not different than any other existing houses of worship in the town.*

- (f) The proposed change will adversely affect other property values;

*Places of worship are uses commonly located with residential areas, and are not expected to have a negative impact on the value of the adjacent properties.*

- (g) The proposed change will be a deterrent to the improvement or development of  
other property in accord with existing regulations;

*Rezoning the subject site will not deter improvements to the surrounding developed properties, since all properties are required to meet existing Land Development Code.*

- (h) The proposed change will constitute a grant of special privilege to an individual owner as contrasted with the welfare of the general public;

*Rezoning the subject site does not give the owner a unique benefit that harms the welfare of the general public.*

- (i) There are substantial reasons why the property cannot be used in accord with existing zoning.

*The existing zoning designation of R-5, Low-Medium Density Dwelling District, is intended to implement the five dwelling units per acre residential classification of the Town of Davie Comprehensive Plan. Staff is not aware of any reasons why the property cannot be used in accord with the existing zoning.*

- (j) The proposed rezoning designation is the most appropriate designation to enhance the Town's tax base given the site's location relative to the pattern of land use designations established on the future land use plan map, appropriate land use planning practice, and comprehensive plan policies directing land use location.

*Although the CF district is among the acceptable districts for implementing the Residential Future Land Use Designation and is not inherently incompatible with the adjacent residential uses in the area, because most of the uses permitted within the CF district are non-profit, the proposed change could remove this residential area from the tax roll.*

Staff finds that the rezoning application complies with the general purpose of the proposed CF, Community Facility District. The rezoning application is in conformance with all applicable Codes and Ordinances and is consistent with the other surrounding zoning districts. Furthermore, the rezoning request can be considered compatible with the existing adjacent buildings and uses.

---

### **Staff Recommendation**

Staff finds the application complete and suitable for transmittal to the Planning and Zoning Board and Town Council for further consideration.

**New Life Baptist Church**  
**Criteria for Reviewing Rezoning Requests**  
**July 6, 2007**

This is a rezoning request for +/- 1.0 acre owned by New Life Baptist Church, Inc. located on the east side of Pine Island Road, approximately 250 feet south of SW 24<sup>th</sup> Street, (Nova Drive). The site is currently vacant and is bound on the north, south and east by the property owned by New Life Baptist Church, Inc, and on the west by Pine Island Road.

The applicant proposes to rezone the site from R-5, Residential District, to CF, Community Facility, in order to be consistent with the remainder of the church property.

The subject site is the final 1 acre property to be purchased by the church. The original remainder of the site was rezoned by the church to CF but at the time, this last piece was not owned by the church so they couldn't rezone it. The site can remain as an R-5 zoning because no building is proposed for this site. But, in order to have the overall site be consistent, the applicant is requesting this rezoning.

As required in Section 12-307 of the Land Development Code, the following is an analysis of the criteria for reviewing rezoning requests.

- a) *The proposed change is contrary to the adopted comprehensive plan, as amended, or any element or portion thereof;*

The proposed change is not contrary to the adopted comprehensive plan. Policy 13-3 of the Comprehensive Plan states that the location of regional community facilities should be encouraged in close proximity to primary transportation facilities such as Pine Island and I-595. It also encourages the location of community facilities in areas where such uses are complimentary to surrounding existing and planned facilities. In addition, this site is the final portion of the overall property to be purchased by the church and needs to be rezoned to conform with the remainder of the property.

- b) *The proposed change would create an isolated zoning district unrelated and incompatible with adjacent and nearby districts;*

The proposed change would not create an isolated zoning district nor is it incompatible with adjacent districts. The Comprehensive Plan recognizes that Community Facilities of appropriate scale can be permitted within residential areas. As stated above, this site is the final portion of the overall property to be purchased by the church and needs to be rezoned to conform with the remainder of the property.

- c) *Existing zoning district boundaries are illogically drawn in relation to existing conditions on the property proposed for change;*

Existing zoning district boundaries are not illogically drawn in relation to existing conditions on the subject property. In fact, this portion of the overall site needs to be rezoned to the CF District in order to be in conformance with the remainder of the site.

- d) *The proposed change will adversely affect living conditions in the neighborhood;*

The proposed change will not adversely affect living conditions in the neighborhood. The overall property is a 10.28-acre site owned by the church of which 9.28 acres are already zoned CF.

- e) *The proposed change will create or excessively increase automobile and vehicular traffic congestion, above that which would be anticipated with permitted intensities or densities of the underlying land use plan designation, or otherwise affect public safety;*

The proposed change will not create or excessively increase automobile and vehicular traffic congestion above that which would be anticipated with permitted intensities or densities of the underlying land use plan designation, or otherwise affect public safety. This site is the final portion of the overall property to be purchased by the church and needs to be rezoned to conform with the remainder of the property. This additional acre will be used as parking area and does not increase the allowable use.

- f) *The proposed change will adversely affect other property values;*

The proposed change will not adversely affect other property values. This site is the final portion of the overall property to be purchased by the church and needs to be rezoned to conform with the remainder of the property which is already zoned CF. This additional acre will be used as parking area and does not increase the allowable use or increase the intensity.

- g) *The proposed change will be a deterrent to the improvement or development of other property in accord with existing regulations;*

The proposed change will not be a deterrent to the improvement or development of other property in accord with existing regulations. This site is the final portion of the overall property to be purchased by the church and needs to be rezoned to conform with the remainder of the property which is already zoned CF. This additional acre will be used as parking area and does not increase the allowable use or increase the intensity.

- h) *The proposed change will constitute a grant of special privilege to an individual owner as contrasted with the welfare of the general public;*

The welfare of the general public will not be compromised by the granting of this request nor does it grant special privileges to the owner.

- i) *There are substantial reasons why the property cannot be used in accord with existing zoning;*

The subject site is the final 1 acre property to be purchased by the church. The original remainder of the site was rezoned by the church to CF but at the time, this last piece was not owned by the church so they couldn't rezone it. The site can remain as an R-5 zoning because no building is proposed for this site. But, in order to have the overall site be consistent, the applicant is requesting this rezoning.

- j) *The proposed zoning designation is the most appropriate designation to enhance the Town's tax base given the site location relative to the pattern of land use designations established on the future land use plan map, appropriate land use planning practice, and comprehensive plan policies directing land use location.*

The subject site is the final 1 acre property to be purchased by the church. The original remainder of the site was rezoned by the church to CF but at the time, this last piece was not owned by the church so they couldn't rezone it. The site can remain as an R-5 zoning because no building is proposed for this site. But, in order to have the overall site be consistent, the applicant is requesting this rezoning. Additionally, churches do not pay taxes on property. The needs of the public for places of worship need to be balanced with the need for property tax base.

Re: Citizen Participation Plan Meeting for: New Life Baptist Church  
Project Number:

Dear Neighbor of New Life Baptist Church:

You are receiving this letter because you live within 1000 feet of our church property where we intend to build our church building. Our location is the 10 acres on the southeast corner of Pine Island Road and Nova Drive. Our address is 2400 S. pine Island Road, Davie, FL 33324. As part of the site plan review process, the Town of Davie requires us to hold two citizen participation meetings to give you, our neighbor, the opportunity to come and see what we are planning to do. Your comments and questions are welcomed. For your review, we will have several beautiful drawings and a copy of the site plan that we have submitted to the Town.

The meetings will take place at 7:00 PM on September 13th and 21st at Town Hall in the Community Room. Town Hall is on Orange Drive just west of Davie Road. There are two dates to make the meetings more accessible to you.

We look forward to meeting you. I think you will be impressed with the design of our building and the layout of the entire site which we believe will be an attractive addition to our neighborhood.

New Life has met for 15 years at Silver Ridge Elementary School. I have had the unbelievable privilege of growing up, raising my children, and being the founder of this church all in Broward County.

If you wish to submit written comments, please send them to:

Pastor Mark Coleman  
New Life Baptist Church  
2400 S. Pine Island Road  
Davie, FL 33324

If you have any questions about these meetings or our plans in general please do not hesitate to give us a call at 954-423-3933. We are here for you as well. We want to get to know you and minister to you in any way we can.

Sincerely,

Mark Coleman, Pastor

## **New Life Baptist Church**

### **Public Participation Meeting 9/11/2007**

- Pastor Coleman gave a background on his church, on the site, history of who they are and why they are here.
- Pastor Coleman described the project, schedule, phasing, and showed the drawings and graphics.

#### **Neighbors Questions/Comments:**

- Where is trash dumpster?  
*Showed them where it was-they wanted it moved away from the property boundary.*
- Asked about berm and fence-  
*Showed them the location, some didn't want wall.*
- South neighbors would prefer to leave border natural at Phase 1.  
*We told them that we had to landscape the perimeter of the site.*
- Asked about exit and entrance to the site. They were concerned about traffic stacking up on Nova, 86<sup>th</sup>. *We explained that we did not want that either and have designed the parking so that cuing will not take place off site as much as possible.*
- Asked about church activities-outside. *Explained that we do not hold carnivals, etc.*
- Lot 7 neighbor want solid fence and berm and landscape now. Worried about safety, wants wall. *Noted concern*
- 86<sup>th</sup> has a big berm that hides the critters, rats-South property line? She wants it removed. *We committed to deal with it now which we have attempted. No further complaints have ensued.*
- Vinnie doesn't like entrance on Pine Island, doesn't want parking up against South property line, lights cars, etc... *This is not part of this phase of the site plan that is being reviewed.*
- Asked about lighting on residential area-code minimizes this. *Our berm will be quite thick.*
- Asked, how far away the berm would be from the residents property line.
- Will the berm be maintained?  
*We showed them a cross section and said we will maintain.*
- Vinnie doesn't want right turn lane on Pine Island. Wants entrance moved farther up North. *Explained code of entrance from intersection. Again, not part of this review.*

### **Questions/Comments: Second Public Participation Meeting 09/19/2007**

- Retention concerns: to be moved to other places on the property.
- Lighting (duration, brightness) *Code addresses this and we explained our typical schedule.*
- Parking at the boundary *Berm addresses this.*
- Timing of the fence being put up *Berm will be one of the first items to be installed.*
- Distance to begin the turn lane Pine Island Road – *not part of this review*
- Concern: filling the canal, sea wall, dble lane (Paul, Vincent) *Not part of this review. These neighbors are concerned that we will fill canal. We explained there is no plan to do this*
- Concern: our property decreasing homeowners property values. *Explained that this property was originally planned R-10 which would have decreased property values. A nicely landscaped church should be an enhancement.*
- Vegetation removed from fence – *Has been done*

**Re: First Baptist Church  
Pine Island Rd & Nova Drive  
Site Plan Submission, SP 7-507  
Rezoning Submission, ZB 7-07**

Dear Mr. Crowley,

Please accept this letter as a summary of the concerns of the adjacent property owners relative to the development of the proposed Church Facility to be located at the southeast corner of Pine Island Road and Nova Drive.

It is our understanding that the Church is a conditionally permitted use in the CF Zoning District, subject to the facility not being located within 2500 feet of another freestanding Church Facility. The site is over 11.0 acres and there is sufficient area to allow for the development and as such the neighborhood would not be in favor of any waivers or variances for the project.

The neighbors would request that the Town of Davie insure that the use be compatible with the residential community adjacent to the property. To this end we are concerned about the buffering of the project, the site layout, landscaping, lighting and traffic to be generated by the project.

Buffering;

1. We would request that a 25' buffer be provided around the property to insure that adequate screening can be provided.
2. Because of the intensity of the development, we would request that an 8 foot concrete wall be provided where the project abuts a residential zone.
3. If a wall is not recommended by staff then, we would request that a 6 foot high chain link fence with a six foot ficus hedge be provided at the property line. In addition a 4 foot berm should be provided within the 25 foot buffer area with a 4 foot hedge (total of 8 feet) be constructed to reduce the visual impact of the project.

#### Site Layout;

1. The north trash enclosure should be eliminated and combined with the trash enclosure area to the south of the building and should be relocated as far west as possible to reduce the noise impact of trash pick-up. There is no reason that the trash enclosure cannot be constructed so as to minimize the visual and noise impact to the neighbors.
2. The proposed lift station for the project is located in the eastern portion of the site in close proximity to the residential neighbors. Please relocate the lift station to the western portion of the site as far as possible to eliminate the noise of the alarms and daily service to be provided for the lift station. In addition the lift station should be properly screened and access should be provided from the Church parking lot to reduce impact to the neighbors.
3. While we understand the need for a children play area, we would request that a 4 foot high wall be provided to reduce the noise from this area and that a ficus hedge be provided to reduce the visual impact to the neighbors.

#### Lighting;

1. We understand that lighting is required within the parking area, we feel that with the 25' buffer and light shields being provided for the lights abutting the residential areas the impact can be reduced significantly.
2. We would also request that only security lighting be provided when the Church is not in use to reduce the impact of the lighting.

#### Traffic;

1. The neighbors would like to receive a copy of the traffic report for the project so that we can have the traffic reviewed by an outside traffic expert.
2. We are specifically concerned about the entrance along Nova Drive. With the proximity to SW 86<sup>th</sup> Ave. which provides access to over 200 homes to the south of Nova Drive and SW 86<sup>th</sup> Ave, which provides access to over 200 homes to the north of Nova Drive the introduction of a third, intersection will undoubtedly cause congestion to the two neighborhoods on either side of Nova drive. The entrance to the Church should be eliminated or limited to right turn out to eliminate conflicts with cars trying to make a left turn from Nova Drive into the Church. There is not enough stacking room to allow this entrance.

We are concerned citizens that have a significant investment in our properties and we look to our elected officials to protect our investment and to make sure that any proposed development is designed to be compatible with the adjacent neighborhoods. We trust that you will address each of these concerns to make sure we are protected as much as possible.

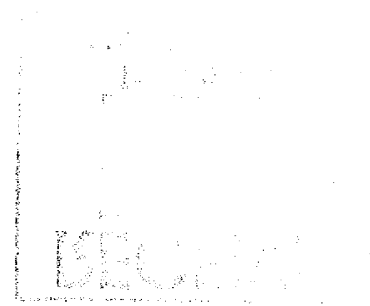

Very Truly Yours,

Concerned Citizens

Re: New Life Baptist Church – Site Plan Application  
MSP 7-5-07

Dear Ms. Bazinet:

This is to confirm that we are in the process of submitting the surface water management plan to the Central Broward Water Control District. We understand that our project may be tabled by the Town Council or applicable committee until such time as the District reviews or approves our plans.

We should be getting comments from the District in early December. The existing site is at a high elevation and the site has been designed with dry detention areas for Phase 1 that should adequately provide for the surface water management.

If you have any questions or require additional information, please call.

Sincerely,

Rosana D. Cordova, P.E., AICP
